America's 250-Year Celebration

What was agricultural equipment like 250 years ago? Well, farmers used wooden plows (yes wood, not steel) with oxen or horses. Planting was done by hand. Harvesting was done by hand with sickles or scythes. In 1776, around 95% of US citizens worked in an agricultural related field. How things have changed since then.

At the Valmy Thresheree, you are not likely to see equipment that old, but you will see equipment spanning over the last 100+ years.

For example, our wooden husker-shredder is about 1900 vintage and is still used each year at our event. Other equipment like our stone crusher, sawmill, threshing machines, shingle mill, hit & miss engines and blacksmith tools are from the early half of the 20th century. And you will find them all running and working at the Valmy Thresheree. Not just sitting idle on display such as at other events, but working under the skilled hands of those who work diligently to keep these machines in working order.

We also have other activities to take in, such as our tractor pull, lawn mower pulls, kids' pedal tractor pull, music and dancing, chain saw contest, church services, mud pig wrestling, food and refreshments. Something for everyone and as always – family-oriented and affordable.

So, if you never attended our special event, located on 40 acres in beautiful Door County, plan on doing so this year. If you have been here before, please come again, and this time bring a friend along. For you know; "There are no strangers here, only friends you haven't met".

-Brian Tesarik

BADGERLAND OLIVER Collectors Est. 2000

We are proud to host the Badgerland Oliver Collectors at the 2026 Valmy Thresheree.

A big thank-you to the following for their use of equipment at our show:
Riesterer & Schnell and Beaver Machine, Inc.

Club Officers

Don Rudolph, *President*
(920) 493-4522

Brian Tesarik, *Secretary*
(920) 629-3682

Gene Dennis, *Vice-President*
(920) 559-7474

Sue Havel, *Treasurer*
(920) 493-2789
